### The Service

Connected Australia's 1000/50 Mbps\* Broadband Service delivers high-speed broadband Internet over Private Fibre Optic Infrastructure to the Network Termination Unit at your property.

### Minimum Contract Term

24, 12 Month or Month to Month Contract.

### Limitations/Qualifications for the Service

Please check our website to confirm your service availability or contact our Residential Sales Team on **1300 859 778** and select **Option 1**.

### Connection Speeds

Connection speed is **up to** 1000/50 Mbps\*.

\*The download and upload speeds selected are the maximum speed that each type of connection can achieve and is not guaranteed.

Connected Australia does not guarantee the speeds that will be reached by end-users as we depend on our wholesalers to ensure services are provisioned to deliver maximum speeds at all times.

We find that when customers experience speed difficulties on these services, they are usually affected by the following factors (internal and external):

- The type of content being accessed
- The type of connection within the premises (wireless or hardwired)
- The distance from the router when connected wirelessly
- Wireless interference (particularly on 2.4GHZ wi-fi in apartment buildings)

- The customer's internal network, operating system (Windows or IOS etc.), hardware, software and software configuration (E.g. firewall and anti-virus)
- The number of people using the service at the residence at the same time
- The origin of the data being accessed (including server limitations)
- Contention or congestion in Connected Australia's or any of our wholesaler's networks

### Hardware

To assure the highest performance of, and levels of support for your service, Connected Australia offers a compatible router for your service.

Router pricing depends on the term of contract chosen and are on page 2.

Should you wish to BYO router, it is your responsibility to configure your own router. Connected Australia offers limited support for BYO router configuration.

### Early Termination Fee - 24 & 12 month Contract Term

An Early Termination Fee (ETF) of up to \$475 (inc GST) for a 24 Month contract and \$300 (inc GST) for a 12 Month contract, is owed if the End User wished to cancel their connection within their minimum contract term. The ETF will be pro-rated by the number of months remaining in the minimum contract term.

Eg. The End User cancels a 24 Month contract with four months remaining after the notice period ends would be calculated as \$475 divided by 24 months times 4 months. This would make the total ETF \$79.17 including GST.

**\$0 with no re-contract**

Change to a plan of lesser monthly cost:

**\$20 on a new 12 month contract or \$40 with no re-contract**

### Payment Options

Pay by direct debit either via card or a bank account. No credit card surcharges apply.

If there are insufficient funds in your account at the time of debit or you fail to update your card information before your debit date, a late payment fee of \$10 will apply to your next bill.

### Billing Cycle

All Connected Australia services are billed in advance via anniversary billing.

E.g. If your service is setup on the 10th of the month, then your billing start date is on the 10th of the month and will cover the full month from the 10th to the 9th of the following month.

We require pre-payment of the first months' cost (including router fee, activation fee and first month).
